### BALANCED RATION FOR CALF

Separator Milk is Liable to Cause Indigestion, Capricious Appetite and Diarrhea.

(By GEORGE H. GLOVER, Colorado Agricultural College, Fort Collins.)  
Separator milk is not a balanced ration for calves. On this feed alone, and the way it is usually given to them, they are liable to get indigestion, as shown by a bloated condition, capricious appetite and diarrhea. Most of this trouble can be averted by adding a handful of oilmeal, cornmeal or cottonseed meal, to supply, in a way, the fat that has been removed in the skimming. The milk should be given to them warm and never when it is frothy. Never allow a calf to drink all of the milk that it wants at one meal. It is bad practice to allow several calves to drink out of one trough, some of them will get too much. Care in feeding calves is of vastly more importance than "cures" for calf scours.

### Forget Your Aches.

Stiff knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than mussy ointments or poultices. For strains or sprains, sore muscles or wrench'd ligaments resulting from strenuous exercise, Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your Druggist, 25c.—Advertisement.

River Has Name of Indian Chief.  
The Croton river, which furnishes to New York the greater part of the water consumed in its limits, was named for an Indian chief.

Every Woman Wants  
**Paxtine**  
ANTISEPTIC POWDER  
FOR PERSONAL HYGIENE  
Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. The extraordinary efficiency and medicinal properties of Paxtine are well known. Sold by The Paxtine Toilet Company, Boston, Mass.

### DAIRY FARMER LOSES MONEY

Raises Most of Feed and Buys Very Little Material—Herd Helps Keep Up Fertility of Soil.

How can a dairy farmer lose money on his cows and still make a living? The answer is easy. The farmer raises most of his feed and probably buys very little material not raised on the farm to assist him in feeding appetizing balanced rations. He has the herd to assist him in keeping up the fertility of the soil and spends little if any money for commercial fertilizers. It results in a small profit on the farm, but profit is made on feed raised and not on the dairy cattle that consume it.

The farmer who is losing money on dairy cattle, but yet making a living on his farm might possibly make more money if he sold the feed, used fertilizer to keep up the fertility of his

Promising Shorthorn Heifer.

land, and spent the time used in caring for the cows in some form of intensive farming which would make him at least wages for his time.

It is a fact that you cannot make money on a losing proposition and it follows that the man who is losing money on dairy cattle is not making a living by selling dairy products. He is making his living because of the crops produced on the farm plus the fact that his living expenses are not large.

### CASTORIA

For Infants and Children  
In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

Demand for American Goods.  
Metal shingles for Johannesburg, South Africa, have to be thicker than those ordinarily sent from the United States, in order to be proof against the severe hailstorms that are frequently experienced in that district. American metal ceilings find a good market there.

## CITY TAXES!

Pay your city taxes now and avoid penalty and final rush. 6 per cent penalty goes on December 1st 1916.

Office will be open all through the noon hour, and from 7 o'clock until 9 o'clock every night this month.
